What is CBN?

Canadian Broker Network (CBN) is a consortium of Canada's leading independent insurance brokers

While some insurance brokers answer to big insurance companies and stakeholders, CBN members are independent, employee owned and operated firms embedded in local communities. Maturing out of a best practices forum dating back to 2002, CBN today provides a unique alternative for members to grow and innovate their business.

With over 50 offices, 1,500 employees and over \$1 billion in property casualty premiums as well as employee benefits, life and financial services represented across the network, members recognize there is strength in numbers.

Through CBN guiding principles of innovation, collaboration, and commitment to growth, members leverage the tremendous value of independence into best possible value propositions for clients, employees and insurer partners.
